

SureMed e-Billing

Automate your payments
to free up valuable time

SureMed e-Billing is an easy way to automate invoices and payments of insurance requests through Konnect NET and we can set this up for you in no time.

**Faster payments
and reconciliation**

Less administration

Nil postage cost

How it works

1. Accept the guideline price for a SureMed request within the confirm tab in Medtech.
2. A numbered invoice will automatically be generated for your practice, and sent to Konnect NET.
3. Your invoice is immediately received by us, which allows us to process for payment to you within 10 working days.
4. Your practice manager or accounts department will no longer need to wait for Konnect NET's confirmation email or manually raise an invoice.
5. The associated invoice number will also be automatically included on your remittance advice – making it easier for you to reconcile payments received.

Getting started

Call us on **0800 566 632** our team will guide you through a very easy process and have you up and running in minutes.
